

Reflection for Vegetable Module

If you plan to have a vegetable garden in the ground or in a raised bed, how will you apply what you learned about vegetable families to crop rotation in your garden? How does crop rotation fit in a vegetable gardener's IPM toolkit?

How will you apply what you learned about cool and warm season crops to succession gardening? How does succession gardening fit in a vegetable gardener's IPM toolkit?

If you plan to have a vegetable garden in containers, strawbale, etc., how will you apply what you learned about cultivar selection? What cultural techniques can you apply to avoid physiological disorders?
